### **Isbn Online -**

The International Standard Book Number (ISBN) is a numeric commercial book identifier which is intended to be unique. Publishers purchase ISBNs from an affiliate of the International ISBN Agency.

### **International Standard Book Number Wikipedia**

The Open Library Books API provides a programmatic client-side method for querying information of books using Javascript. This API is inspired by the Google Books Dynamic links API and is compatible with it. You can also pass people to an Open Library edition page by using a URL like this: <https://openlibrary.org/works/OL123456789A>
